**RE: MODIFICATIONS TO SECTION 7, FIELD SAMPLING PLAN, OF THE PHASE I RFI/RI WORK
PLAN FOR OPERABLE UNIT 7, PRESENT LANDFILL, January, 1993**

Dear Mr. Schassburger,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division) and the U. S. Environmental Protection Agency (EPA) have reviewed the document referenced above. We have determined that the modifications proposed in this document are acceptable as long as the clarification described below is understood and acceptable to the Department of Energy.

Section 2.0 proposes sampling the newly installed groundwater monitoring wells on a monthly rather than quarterly basis due to "scheduling constraints." This modification would still provide data from four sampling events in time for the Draft Phase I Report. This change is allowable if the wells continue to be sampled and the additional data is included in the Final Phase I Report.

With this clarification of Section 2.0, this document is approved and will be considered an addendum to the Final, Phase I RFI/RI Work Plan for OU 7.

If you have any questions concerning these comments, please contact Carl Spreng of the Division at 692-3358 or Bill Fraser of EPA at 294-1081.

Sincerely,

Gary W. Baughman
